

Kitchener West Walmart Supercentre holds its grand re-opening on September 25th

The Kitchener West Walmart Supercentre at the Sunrise Shopping Centre will hold its grand re-opening on September 25.

The store originally opened in 2004 as a discount store but underwent an expansion this summer and is now a Supercentre, and will now offer a full and comprehensive line of groceries, as well as an expanded assortment in key departments like electronics, home

décor and apparel, creating a one-stop shopping destination.

The 30,000 square foot expansion increased the size of the store to 160,000 square feet. With the expansions the store now employs 375 people. About 50 people were hired this summer in a recruitment drive that brought in over 1,000 applications for roles such as cashiers, food managers, and cake decorators.
